This is an office action for serial number 10/723,815, entitled Pop-Up Mechanism to Raise the Top of pieces of Furniture, filed on November 26, 2003.

Allowable Subject Matter

The indicated allowability of claim 5 and 6 withdrawn in view of the reference(s) to Ransil et al.. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5 and 6 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 recites the limitation "the tabletop" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claims 6 is rejected under 35 USC 112, second paragraph as being dependent on a canceled claim and therefore the

Art Unit: 3632

limitations such as stoppers, stopper holes, and tabletop part, and piece of furniture lack antecedent basis.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5 and 6, as best understood, rejected under 35 U.S.C. 102(b) as being anticipated by Ransil et al. (Ransil) 6,038,986. Ransil discloses a upper and lower oblong member (28 and 26), a brace (see attached figure), a biasing means (18), holes (see attached figure), and stoppers (see attached figure).
